■ Main steel grades

SUS304(L),SUS316(L),SUS317L,SUS321,SUS347

■ Outer Diameter and Wall Thickness

The range of dimensions TSK can manufacture is given above.

Some restrictions apply depending on the type of steel and other specifications, so please consult with us regarding details.

■ Product Length

We can manufacture straight tubes as long as 12 m.

Some restrictions apply depending on the relationship between outer diameter and wall thickness, steel type and other specifications, so please consult with us regarding details.

■ Dimensional Tolerance

Generally TSK manufactures according to its specified dimensional tolerances, based on JIS.
